SUN STREAK Report - 90100 (U)

TO:

ODCSINT, DAMI-PO

SG1A

1. (S/STD/NF) On 22 August 1990, three remote viewing sessions were conducted to determine if narcotics in the form of illegal drugs are on board a target vessel identified as the [REDACTED] SG1A If so describe the type of narcotics involved; how packaged; and, where stored; and, determine if the illegal drugs are being carried by any of the crew members.

2. (S/STD/NF) Viewer 049 reported that contraband narcotics are present. They have been packaged within long tubes reminiscent of those used as the cores for rolls of carpet. These tubes are 6 inches - 8 inches in diameter, 6 paces long and made of a very hard material. They are stacked in a cage-like rack. This rack is located just below the corner where the port side hull and the deck meet at midship. A catwalk or walkway runs along side and parallel to the rack. This rack sits on top of a larger tube/duct which has contained motion within it. The floor of the walkway and the surface in which this larger tube/duct sits upon are one in the same. There is a rather "cavalier" attitude in the attempt to hide the narcotics. A man named OSCAR is associated with the drugs. He is known as a doubled checker, a "typical hatch guy." There are smells of food cooking, particularly chicken soup. There is also a musty and dirty smell present. The phrase "off in bay....." is also associated with OSCAR.

3. (S/STD/NF) Viewer 095 reported that the vessel is a large gray and black cargo vessel. It is carrying a full load of cargo and is nearing (within 24 hours) a port where its cargo will be immediately unloaded to semi-trucks. The vessel is not carrying contraband. The captain of the vessel is a large burly man with black wavy hair and dark eyes. He is extremely angry/agitated about something.
